The News.

The Republicans of the St. Louis Congressional District, in Convention, nominated FRANK P. BLAIR by acclamation for re-election.

We have further details of the *Arabia's* news this morning. The harvest prospects in the south of France are encouraging. The yield, it is expected, will be a third larger than last year. It was rumored that the Duke DE MALAKOFF would soon return to France, and Count DE PERSIGNY, resume the mission to England.

Gen. HARNEY is to be recalled from the expedition to Utah. The supposed object of this movement is to make a diversion against the hostile Indians in Oregon.

At a firemen's row in Philadelphia, on Monday night, one fireman was killed and two others severely wounded.

The commander of the cruisers, Jasper Buzzard, and Styx, the British Vice Admiral in Jamaica assured the Commander of the Wabash, would be held to a strict account of their doings.

The New York wheat market, yesterday, was heavy, and common grades of wheat lower.—Our market was inactive, and offers for wheat lower.

Weather scorching hot all day.

The Bids for the State Printing.

We understand that the bids for the State Printing have *all* been rejected by the Commissioners, in consequence of the basis adopted not being in accordance with new law. It is also decided to advertise immediately for new proposals, to be made in confirmity with the law.

Tunnel City.

TUNNEL CITY, June 28.

MESSRS EDITORS:—I desire, through the columns of your paper, to say a word in reference to our new city and its surroundings. Tunnel City, as its name indicates, is just at the eastern approach to the Tunnel on the La Crosse and Milwaukee Railroad in a beautiful dell guarded on the West, North and South, by a low range of bluffs, which are all easy of access, and by the many magnificent sites for residences, as they overlook the surrounding country for miles in every direction, and presents to the eye, a landscape of unsurpassed beauty, richness and variety. This place, though but recently laid out by the proprietor, SELAH CHAMBER LAIN, a man well known in the business world for his insight and energy, has from his extended influence, and its own intrinsic merits, received an impetus which is certain to make it a place of no inconsiderable importance. It is located in the centre of a rich and extensive farming country, and for fertility is unsurpassed in Wisconsin.

In the vicinity of extensive Pineries, it can be readily supplied with building material, and at the present rates for labor, building, either for business or residence, can be put up at a very low figure. For various reasons, this embryo city is destined to be a business centre. It has a farming community of at least ten miles square, dependent upon it for supplies, and Railroad connections. And being in the immediate vicinity of that stupendous work, the *Tunnel*, itself a commentary upon human science and unyielding energy, and especially in the West a work of interest and curiosity. It must draw many from abroad through a curiosity, to see but which in the West has no counterpart.

Again, the healthfulness of its location, and the beauty, variety and romantic appearance of the surrounding scenery, must present many inducements to those seeking homes of retirement and ease in the West, saying nothing of the attractions which the rarechan ces for fishing and hunting present, as fish of all kinds, and especially the Speckled Trout, abound in the streams, and game of all kinds is to be found in the timbered lands, in the vicinity.

Though our place has been laid off scarcely a month, it now contains two large Hotels, five Stores, Blacksmith Shops, Shoe Shops, &c., and should its prosperity continue, its population will not be far short of five hundred by the end of the present year. The extensive influence and acquaintance of the proprietor, Mr. CHAMBERLAIN, has undoubtedly had something to do with the present prosperity of this place, and will have still more to do with its future growth. Mechanics and Artizans of all kinds are in great demand, and can do a paying business by locating here; in fact, business men of all kinds can make sure investments. The completion of the Railroad to this point, brings us daily in connection with Milwaukee and the East, and has opened up to settlement a large and fertile tract of country, heretofore but sparsely inhabited, but which is now being rapidly filled up with hardy and energetic men from the East. To be satisfied of the truth of these statements, one has but to visit our town, note its advantages, and witness its prosperity. All information with reference to the sale of Lots, &c., can be obtained of LATHROP & HUNTER, of the Northwestern Land and Collecting Agency, at this place who are gentlemanly fellows, and on hand at all times to attend to business. A. W. L.

MICHIGAN CENTRAL R. R.—The election for Directors of this Company, held at Detroit on Monday last, resulted in the choice of the following gentlemen:

J W BROOKS, Boston, Erastus Corning, Albany, Thomas Tileston, New York, J D Williamson, New York, N Thayer, Boston, R B Forbes, Boston, H H Hunneywell, Boston, H H Warden, Boston, Elon Farnsworth.

A FRIGHTFUL LEAP.—As a pleasure party were out sailing on the lake on Sunday, a sailor wounded the mast of the vessel and leaped into the Lake, a distance of 150 feet. He was rescued in an insensible state by a small boat, but soon revived, expressing the opinion that "it was an almighty good jump." He had been treated by an acquaintance as no sailor, and being a little in liquor, it operated to make him take this frightful leap, which was from the truck of the mainmast, the gilt ball on the top of which he removed and threw into the lake before swinging in himself.—*Chicago Democrat, of yesterday.*

DETROIT & MILWAUKEE RAILWAY.—The rails are laid into the city limits yesterday. A few days will probably be required for ballasting and repairs, after which the trains will run regularly between Detroit and Grand Rapids.—*Grand Rapids Enquirer.*

Trouble in the Democratic Camp—Calhoun to be Decapitated.

WASHINGTON, June 24, 1858.

Decidedly, the aspect of the future is gloomy. The Kansas affair has not united the South in favor of the Administration. It has given new life to the Americans; it has excited deep indignation in the Democratic ranks in the South, on account of the proscription it has given rise to; it has not destroyed Wise, and it has divided the Democrats in Maryland and in Delaware. In North Carolina, D. K. McRae, a Democrat, is making a stump can vass for Governor, and is denouncing Lecompton; in Tennessee F. P. Stanton was warmly welcomed and praised for his hostility to Lecompton, while in Louisiana the bitterest strife is brewing between rival factions. In Missouri the two American members of Congress, Woodson and Anderson, who voted for Lecompton are both in danger of being rejected by their own and the Democratic parties In these districts anti-Lecompton Democrats are openly running. I need not tell you of the Northern States. You can tell of these yourself But it is said that Appleton, of the State Department of the Union, &c., is extremely nervous about a Democratic State Convention which was to be held in the State of Maine on the last day of June. There is some opposition manifested in Maine, though Mr. Buchanan has pretty well cared for the gentlemen who have controlled the politics of that minority State for years past. They ought to put things right through.

It is rumored here to-day that John Calhoun is to be removed from the office of Surveyor-General-for Kansas. The orange has been exhausted and the rind thrown away.

Correspondence of the New York Tribune.

Further Trouble with the Mormons Anticipated.

WASHINGTON, June 25.

Dispatches were received from General Johnston to-day; also letters from civil officers at Fort Bridger. Some of the latter were dated 21st and others the 25th of May. The former speak confidently of a probable pacification through the instrumentality of Gov. Cumming's efforts, who had been six weeks in various parts of the Territory, and had succeeded in satisfying the Mormons that conciliation was practicable without compromising them or the Federal authorities. All Brigham Young asked was a fair trial, but he objected to a jury from the camp. Judge Eckles had thwarted Gov. Cumming seriously by his extra-judicial intervention, and it was known that others were combined with him for the same object.

The last date presents a less promising aspect of affairs, and mainly from the proceedings which Judge Eckles and the United States Marshal had sought to institute, in defiance of the Governor's policy. It was believed that their efforts were directed towards a collision, as the most effectual means of subjugation. Brigham Young has assured Gov. Cumming that he was willing to give himself up if he could have a reasonable chance of justice. The latest letters state that Gov. Cumming would go to Salt Lake about the 1st of June, attended by the other civil officers. Mr. Forney, the Indian Agent, was to accompany him, and open an office there at Provo. He had succeeded in his negotiations with several tribes of Indians, and reports favorable progress with others.

If bloodshed now occurs in Utah, it will be mainly owing to the rash measures of those whose first duty it is to preserve peace. Instructions have already been issued here to stop Judge Eckles' foolhardy course, and additional orders will go by the next mail.

Iowa.

The Democratic State Convention—The Administration Floored—A Separate Lecompton Convention Called.

The Democracy of Iowa held their State Convention at Iowa City on Thursday last, to nominate candidates for State Officers. There were about 250 delegates present. Gen. Van Antwerp presided. The following State Ticket was nominated:

Secretary of State.—Samuel Douglas, Benton.
Auditor.—Theo. Parvin, Muscatine.
Treasurer—Samuel S. Lorah, Cass.
Attorney General.—Samuel M. Elwood, Polk.
Com. of Des Moines River Improvement.—Chas. H. Baldwin, Van Buren.
Register of Land Office.—James M. Reed, Lee.

A committee of fifteen was appointed to report resolutions, and Ben. M. Samuels for a majority of the committee, reported a series endorsing the Cincinnati Platform, the Dred Scott decision, and "the old thrice honored landmarks of the party;" condemning the "British outrages," but saying never a word for Lecompton, or the President individually.

I. O. Williams, in behalf of the minority of the Committee, offered the following resolution:

Resolved, That we recognize in his Excellency James Buchanan, a statesman of ripe judgment and pre-eminent wisdom, who with systematic devotion to the great principles of representative Democracy, has thus far conducted the government of our great confederacy with signal ability, and with a just and proper regard for the varied and conflicting interests of States and individuals.

A motion was immediately made to lay this resolution on the table, and after a violent skirmish between the two factions, it was carried by a vote of 183 7-12 to 112 5-12.

Efforts were then made to offer a reconsideration of the vote, in order to procure an amendment to the resolution and adopt a plan by which the Convention could harmonize, but a motion to adjourn *sine die* was carried amid great confusion.

A request was immediately made that the friends of the Administration, who had just been voted down, should remain in the Hall. After the Anti-Lecompton majority had left the Hall, a convention of the friends of the Administration was organized, and Gen. Van Antwerp elected President. A committee on resolutions was appointed, who reported three; the first unconditionally, endorsing James Buchanan and his Administration, the second endorsing Major General George Washington Jones, and the last the State ticket, which had been nominated by the full convention. These resolutions were signed by 112 members of the Convention. And thus ended the State convention of the "harmonious Democracy of Iowa."

THE STATE PRINTING.—The bids for State Printing were opened this afternoon. The bidders were Atwood & Rublee, of the *State Journal*, Jermain, Brigham & Co, of the Milwaukee *Sentinel*, George Webb of the *Argus*, E. A. Calkins of the *Argus*, S. D. Carpenter of the *Patriot*, O. T. Wakeley of Madison, B. E. Hale of Beloit, S. M. Booth of the Milwaukee *Free Democrat*. The competition was very close—No decision yet. It seems to lie between Wakeley, Webb, or Calkins. Wakeley's bid for composition is one-thirty-second of one cent per thousand ems; the same price for press work per token!

P. S.—The commissioners have adjourned to 8 o'clock this evening. A computation on the basis fixed for bidding, shows Mr. Wakeley's bid, for the aggregate of work, thirty dollars below that of Mr. Webb.—*Madison Journal.*

INJURY TO THE WHEAT CROP IN CENTRAL ILLINOIS.—We regret to hear, by an intelligent gentleman direct from Bloomington, that the wheat crop in that vicinity has, within the past week, been very much injured by rust. Our informant says that on Saturday last, when the town was full of farmers from all parts of the country, he made it his business to inquire of them what the crop prospects were, and the answers have convinced him that McLean—usually one of the most reliable wheat counties in the State—will not this year have half wheat enough for bread. The growth of stalk is very rank, stimulated, no doubt, by the late wet weather, and when exposed to the hot sun of the past ten days, it readily contracted disease. In some localities the crop is not worth cutting, and in all parts of the county it has suffered severely. The gentleman to whom we refer, mentions one field particularly, which only a week ago promised 30 bushels to the acre. On Saturday last, the entire crop standing was sold for a "ton dollar bill!" We are sorry to believe that the injury is not confined to McLean alone. From that belt of two or three counties, McLean being the centre, stretching from East to West across the State, we expect to hear a similar report. Further South, the grain, where not already cut, is cut is out of harm's way; and in this region it is not far enough advanced to be destroyed by the cause which has been so fatal in the centre of the State. We do not despair of a good average wheat crop yet.—*Chicago Tribune of yesterday.*

POLICE COURT YESTERDAY.—A woman named Henrietta Stallman was found guilty of vagrancy under the new ordinance, and sent to jail for 20 days, in default of $10 fine.

A poor man, named Carl Schwartz, was convicted of an assault and battery, fined five dollars, and not being able to pay the penalty, was sent to the county jail *to remain there until the fine is paid.* This was rather a hard case, and it did not fail to excite our sympathy. The offender was a poor man, and a large family are dependant upon him for support. The offence of which he was found guilty was a mere technical violation of the law. In an excited state he struck a man who had provoked him by some means, but inflicted no injury whatever. The evidence of his having done so was undisputed, and he was therefore guilty of an assault and battery, according to the strict letter of the law, but taking the circumstances into consideration, the Court imposed the lightest penalty that the statute allows, which is $5, and had the amount of the penalty been left to the discretion of the magistrate, he would have made it merely nominal; so we inferred from his remarks on the case.

The court is satisfied that the offence is only *a technical one.* The lightest penalty is therefore imposed, but the man is poor, has a large family, is unable to pay the fine, and he must therefore go to jail for an indefinite period.—The crime is of a very trivial nature, yet the offender, must go to jail, and be kept there at the expense of the county, and his family deprived of their only support, just because he is unable to pay a fine of five dollars! This may be law, but it certainly is not justice.

The judge who consigns this man to the prison cell, because he is unable to pay *five dollars*, pities him—he would fain give him his liberty, he knows that the offence of which the prisoner has been convicted is not such as to require a severe punishment, to meet the ends of justice; but he is bound by his oath to administer the law *as it is*, not as it ought to be, and thus a great wrong is done to a poor man, and a helpless family left entirely destitute. We have frequently heard Judge WALWORTH express his regrets at being compelled, in such cases as the above, to enforce the provisions of this statute, and certainly humanity and justice require that it should be modified in some manner. J. P. Martin, intoxicated and disorderly, was fined $3 and costs. Michael Flynn, bathing within the city limits, was fined $2, Robert Rockert for the same offence was also fined the same amount.

"THE BUILDING AND ARCHITECTURAL REFORMER."—A day or two since we published a very elaborate account of this ingenious machine, the invention of our fellow-citizen, SILAS C. SALISBURY. It is proper to remark that Mr. SALISBURY has obtained the same *results* from the full-sized machine that he exhibits with the small model. It is, therefore, not a mere matter of experiment, but one of actual demonstration; and remarkable as are the results obtained, they are so many visible and tangible evidences of the value of the invention.

It has been thought highly desirable to put this machine in operation, in some one of the brick yards about our city. To this end a meeting of those interested in the success of the invention is invited, at the office of Mr. D. P. HULL, in the basement of the Newhall Block, *this* (Wednesday) afternoon, from 2 to 3 o'clock. A very moderate sum will suffice, and we hope to see it made up without delay.

CONTINUED HOT WEATHER.—We have now had some ten, or twelve, consecutive days of unusually hot weather; the mercury, at noon, marking from 85 to 90° in the shade. Yesterday, however, as on almost each preceding day, the heat has been tempered by a fresh breeze from the Lake, which has added vastly to the comfort of our citizens.

In the interior, where the Lake breeze does not penetrate, the heat has been almost insupportable. A friend who spent Sunday at Madison, informs us that the thermometer there ranged from 98 to 102 in the shade, during the day, and was still 90, as late as 9 or 10 o'clock at night.

RECEIPTS OF SALT.—Mr. ROBERT MCKAY, proprietor of the extensive salt yard on South Water street, writes us, correcting two errors which occurred in our marine list, last week. According to our report the amount of salt received by the schooners *Theodore Perry*, and *Augusta*, were respectively 250 bbls., and 100 bbls., whereas the correct amounts were as follows:

Sch. *Theodore Perry*, 2,150 bbls.
" *Augusta*, 1,000 "

Both of which vessels discharged their cargoes at the yard of Mr. MCKAY. This makes the total receipts of salt last week 4,150 barrels, instead of 1,400, as given in our list. The errors were made by the compositor, and escaped our notice in the proof.

HORTICULTURAL SOCIETY EXHIBITION.—We hope that our readers will bear in mind the exhibition of the Horticultural Society, which comes off at "the Albany," to-morrow afternoon and evening. Besides the attractions of the show, there will be refreshments, music, and a social dance in the evening. The price of admission is only twenty-five cents, and on such an occasion the Hall and Rotunda in the Albany, spacious as they are, should be crowded with visitors.

THE GROWING CORN.—An old resident and experienced farmer, in our County, informed us yesterday, that Corn had grown more rapidly during the last ten days of steady hot weather, than he had ever known it to do, and that it was now quite as far advanced and as prospering in appearance as he had ever seen it on the 28th of June.

AN OLD WOMAN SCARED.—The *Wisconsin* local says that "several old women" were badly frightened by the breaking of the poles and ripping of the canvas in DAN RICE'S circus tent, during the squall last Friday. The local aforesaid was one of them.

☞ This morning CALEB WALL sells Furniture, and also a lot of fancy articles. To-night he sells some very fine Engravings. Attend his sale.

Common Council Proceedings.

MAYOR PRENTISS PRESIDING.

We now give the report of the Eighth Ward. This Ward was taken from a part of the Fifth Ward, two years ago. There is not as many improvements going on at present, as there will be in a short time. Doct. WEEKS' addition is in this Ward. All are well acquainted with it.—The principal and numerous improvements seem to be entirely going on in the WEEKS' addition. Not being well acquainted with the names of the streets, we are unable to give the improvements in each street, but we can say this, that we now can figure up some Dwelling Houses, which have been erected in said Ward, and the Doctor has spared no expense, from what we can see, and in getting the streets graded and in good order in his addition.

We could write a lengthy article about Weeks' Addition; it is a very beautiful place for a view of the lake and city, and must say, that from the appearance of some of the buildings, that taste and intelligence dwell there. We must also remark, that in the Eighth Ward, you will find some residences as fine as can be found in any other ward in this city. There are our old settlers' and friends' residences: Mr. SHEPARDSON, Capt. CROSS, Mr. CORDES, Mr. BURNHAM, Mr. BRIGHAM; that will compare with any other dwellings in this city. We say again, take a ride through the Eighth Ward, and you will find the drive through Elizabeth street as pleasant as one would wish. We now close, and to-morrow we will give a report of the improvements going on in the Ninth Ward, which will end our labors. Improvements are now going on in the Eighth Ward.

Elizabeth street, 8 Frame buildings, valued at	$ 8,500
Mineral street, 3 do do do	1,000
On WEEKS' Addition there are some 60 buildings under way, which when completed are estimated to be worth	30,000
CLARK'S Addition, pleasantly located on Elizabeth street, which is the principal street in the Eighth Ward, has some 10 comfortable little cottages in process of erection, valued at	4,000
Total,	$43,500

For the Sentinel.

Fourth of July.

There is some talk I believe, among several of the Military and other Companies of the city, of some public recognition on Sunday next, as the great day of our Independence, by their attending some church or churches, in a body. If this is the intention of any Military or Fire Company, will you permit me through your paper, very respectfully to entreat our fellow citizens, not to make *any* demonstration on that day, but rather let the old custom continue of deferring the celebration of the Fourth until the Fifth, and then all citizens can join in it with a glad and happy heart. Doubtless the intention of celebrating the Fourth by a great attendance of Companies in a body at church, has arisen from the best of motives; but will it not, perhaps, lead to a more open and disrespectful demonstration hereafter, whenever the Fourth occurs on a Sunday—and this instance be pointed to as a precedent?

We all love the Fourth, and love to celebrate it, as the day of our National Independence, but let us not forget that the Lord's day takes the precedence. We all believe that God gave us the great National blessings we enjoy. We know that from the very begining His Power and Majesty were recognized as the Lord of Hosts, the Ruler of Nations—and, therefore, that the foundations of this Republic were laid in humble faith and prayer. Let us strive to be worthy of a continuance of these blessings, by honoring Him in every way, but especially *now*, by setting aside our own inclinations, to honor that commandment of His—"Remember the Sabbath day to keep it holy.

P. H. Alpseter,	George W. Olason,
	A. H. Johnston.

Yesterday the case of O. W. RENNEY, and WILLIAM F. GOVE, vs. L. J. HIGBY, was being tried by a Jury.

THE GREAT AMERICAN CIRCUS.—We see that SATTERLEE, BELL & Co's Great American Circus is to be at Chicago on the 5th of July—celebration day. We learn that it is the intention of the Managers to visit our city, and that they will be here about the 10th proximo. The Company stands among the first in the Country, and attracts a crowd at all times and in all places.—MR. O. F. RENNER, formerly connected with SPALDING & ROGERS Company is the Agent, and is well known in this city.

A LITTLE BOY DROWNED.—The body of a little boy, named JOHN FRAMER, was found drowned in the river, yesterday morning, near the Depot of the M. & M. R. R., by two men named WM. STERIS and JOHN ALLEN. The little boy was missed on Sunday, and must have accidentally fallen into the river. He was about nine years old.

PREPARING FOR THE FOURTH.—The Milwaukee Artillery, Capt. LIENHARDT, and Company "A", Milwaukee Light Guard, Capt. STARKWEATHER, were out, Monday evening, for street drill. Last evening, Company "B", Milwaukee Light Guard, Capt. TOWNSEND, also had a street drill. The companies are all preparing to make a fine show on the Fifth.

MILWAUKEE ART UNION.—The subscribers to the bust of SOLOMON JUNEAU are requested, by BROOKS & STEVENSON, to call and pay up, so that an early day may be set for the distribution.—The earlier the dues are paid, the sooner the distribution will take place.

☞ PROF. WOOD'S HAIR RESTORATIVE.—In our advertising columns is to be found an advertisement of this popular restorative. We know nothing of its merits save that we have heard it talked of favorably when we see such testimony of its efficacy as the following, which we clip from the Ottawa *Free Trader*:

"Having prized superlatively sundry highly recommended hair tonics, on our own half denuded crown, we about lost all confidence in nostrums of that sort, until a week ago we met a distinguished politician of this State, whom we had seen three years ago with this hair, and as 'gray as a rat' but now boasting as fine a head of hair as one could wish. We demanded the secret of his improved appearance, when he readily accounted for it by ascribing it to the virtues of Prof. Wood's Hair Restorative. We will try that next.—[Rock River Democrat.

Washington Matters.

WASHINGTON, June 24.

The Navy Department has confirmatory accounts of the proceedings of Com. McIntosh, at San Domingo. The entire fleet, with the exception of a bark, which was returned to her original owner, has been given over to Santa Anna, who with his troops would immediately occupy the city. It is true, as has been rumored, that he gave Com. McIntosh the most solemn assurances of the protection of all American citizens, and expresses to our Government his great desire to maintain the most amicable relations with it.

By order of the War Department, a military post, to be known as Fort Abercrombie, is to be established on the most eligible site near the head of navigation of the Red River of the North, in Minnesota. Operations will be commenced without delay. Two companies from Fort Ripely and one from Fort Ridgely, have charge of its construction. The post at Fort Ripely will be broken up.

The Secretary of the Navy had instructed the the bureau of construction to prepare a drawing of the plans for building without unnecessary delay. Of the 8 vessels of war, recently authorized by Congress, two will probably be constructed at the Philadelphia Navy Yard, and one at each of the other yards, with the exception of that at Washington. It is said that the side wheel steamer for the China sea, will be built at the California Navy Yard.

Army News.

NEW YORK, June 29.

The Washington correspondent of the Tribune says that the Military Commandant at St. Louis was telegraphed to-day to send an express after Gen. Harney, recalling him from the expedition to Utah, where the present force will be placed under command of Gen. Johnston exclusively. The supposed object of this movement is to make a diversion against the hostile Indians in Oregon.

ST. LOUIS, June 29.

A despatch from Leavenworth, June 27th, by the steamer Platte Valley, to Boonville, says that the two companies of the 4th infantry who were coming to garrison Fort Leavenworth, together with two companies of the same command now at Fort Scott, are ordered back to Fort Randall. They will be accompanied by 260 recruits which will arrive here within ten days, from the Eastern States. This movement is understood to have reference to the reported hostile attitude of the Indians in Nebraska. The officers commanding this detachment are Capt's. Sorrille, Lyons, Gardner and Lieut. Smith.

Arrival of the Ariel.

Washington Matters.

WASHINGTON, June 24.

The Navy Department has confirmatory accounts of the proceedings of Com. McIntosh, at San Domingo. The entire fleet, with the exception of a bark, which was returned to her original owner, has been given over to Santa Anna, who with his troops would immediately occupy the city. It is true, as has been rumored, that he gave Com. McIntosh the most solemn assurances of the protection of all American citizens, and expresses to our Government his great desire to maintain the most amicable relations with it.

By order of the War Department, a military post, to be known as Fort Abercrombie, is to be established on the most eligible site near the head of navigation of the Red River of the North, in Minnesota. Operations will be commenced without delay. Two companies from Fort Ripely and one from Fort Ridgely, have charge of its construction. The post at Fort Ripely will be broken up.

The Secretary of the Navy had instructed the the bureau of construction to prepare a drawing of the plans for building without unnecessary delay. Of the 8 vessels of war, recently authorized by Congress, two will probably be constructed at the Philadelphia Navy Yard, and one at each of the other yards, with the exception of that at Washington. It is said that the side wheel steamer for the China sea, will be built at the California Navy Yard.

WEDNESDAY MORNING, JUNE 30.

Symptoms of another Change.

We copied yesterday what struck us as decidedly a funny card, from the Chicago Daily *Union*, heretofore the Buchanan and Lecompton organ of that city. It was from the proprietor, Mr. DIVERSY, notifying the public that ISAAC COOK, P. M at Chicago, who had contracted to buy the paper had failed to fulfil, and that therefore he, DIVERSY, resumed the editorial control which he had surrendered, for a brief period, to COOK & Co., in anticipation of the sale. In doing so, Mr. DIVERSY *repudiated* the political articles which had appeared in the *Union* for some weeks previous and especially the attacks upon Judge DOUGLAS.

This funny card in the Chicago *Union* elicits an equally funny comment in the Milwaukee *News*. We give it *in extenso*, as it appeared in the *News* of yesterday:

A Change.

M. DIVERSY, late editor and proprietor of the "National Union," Chicago, is out in a card announcing that all the political articles, which have appeared in the *Union*, since the 16th inst., are repudiated by him. He says he does not believe that the attacks made upon Judge Douglas "will contribute to the harmony and welfare of the Democratic party of Illinois."—He alleges that a conditional sale of the paper to Isaac Cook, Esq., P. M. of Chicago, about the middle of this month, as he supposed, rendered it unnecessary for him to give any attention to the paper. We learn from the Chicago *Tribune* that Louis Schade resumes the chair editorial, which he vacated in consequence of a slight misunderstanding with Francis J. Grund, at Springfield.

If we are not very much mistaken, M. DIVERSY's case is analogous to that of Col. A. W. Hart, of this city, who published the *American*, under an arrangement very similar to that which M. DIVERSY speaks of in his card. The *Tribune* however, announces that another victim will be hooked up, and sacrificed with as little delay as possible. This may not be so readily accomplished. The democracy of Illinois will not give aid and comfort to the Black Republicans by sustaining such papers, and we are therefore inclined to doubt the fulfillment of the *Tribune's* prophesy. In newspapers, as in all other kinds of business, the demand regulates the supply, and there is very little demand in Illinois for papers conducted as the *Union* has been for the past two weeks.

Considering the intense zeal which the *News* has displayed, all through the winter and spring, for Lecompton and the BUCHANAN Administration, it is certainly refreshing to find it now sympathizing with DIVERSY and DOUGLAS, and ridiculing the idea of immolating any more newspaper victims upon the BUCHANAN altars in Illinois. Can it be that the *News*, prefering by the shrewd advice of Col. ROBINSON, of the Green Bay *Advocate*, is about to return to its first love, Anti-Lecompton? And, if this be so, where will the Administration Party in Wisconsin look for an organ? The Post Office disappointment has effectually chilled the affections of the *Argus*; the recent decapitation of DAN BROWN, has disgusted the Janesville *Standard*; and now that the *News* seems growing coy towards BUCHANAN and is ogling DOUGLAS, what can the "regulars" do? This is a matter which calls for the prompt action of our Federal office-holders in this City, and their co-workers throughout the State.

A Candidate for Congress.

The Ozaukee *Advertiser* publishes a call for a Democratic Congressional Convention, at Fond du Lac, on the 8th of September next, and improves the opportunity to nominate a candidate for Ozaukee County, whom the *Advertiser* represents as having stronger claims for the nomination than any heretofore mentioned. The gentleman referred to is Ex Speaker F. W. HORN, of Cedarburg, and the *Advertiser* thinks that he will be presented by Washington, as well as by Ozaukee County. As these two counties give a much larger Democratic majority than all the rest of the Democratic counties in the District put together, their preference is certainly entitled to the most respectful consideration.

The *Advertiser* says of its candidate:

Mr. HORN has the benefit of an extensive Legislative experience, having been twice elected Speaker of the Assembly, he discharged that important duty with marked ability. The fact of Mr. HORN being a German by birth can be no objection to him with sound democrats; on the contrary, it may be the means of bringing out a much heavier vote of that class of our citizens, who are in a large majority in this district, and who might very naturally feel a little pride in seeing one of their countrymen elevated to this enviable position. Such feelings are natural, and very excusable.

FRED HORN started in political life as a good Whig, and it is to the influence of his early training and associations that he may ascribe his firm stand against the Lecompton villainy.

Of the Democratic candidates for the nomination in the Third District, Mr. FITZGERALD, of Oshkosh, and FRED. HORN, of Cedarburg, are decidedly anti-Lecompton; Mr. HOBART, of Calumet, and Mr. COOK, of Sheboygan, are Administration; Judge LARRABEE, we believe, is anti-Administration; Ex-Gov. DOW, occupies an independent position; and the others have not yet "declared." There is no doubt, we think, that the nomination will fall on an anti-Lecompton and anti-BUCHANAN man.

☞ The *Sentinel* endorses the democracy of Mr. Williams, late Postmaster at Watertown. It is a pity that a man whose democracy is vouched for by the *Sentinel* should be removed from office. Perhaps the President don't like that kind of democracy.—*News, of yesterday.*

Perhaps not. He seems to prefer the "democracy" of Gen. CHAPPELL, who, as the *News* lamented Sunday, was "about" when Mr. WILLIAMS was removed. Whether the People of Watertown agree with the *News* and the President, in their estimate of the relative merits and comparative "democracy" of Gen. CHAPPELL and Mr. WILLIAMS, we shall doubtless learn in good time.

CELEBRATION AT WHITEWATER.—The citizens of Whitewater intend to celebrate the 82d Anniversary of our American Independence, in a patriotic manner. We are indebted to somebody for a big poster containing the programme for the occasion. A number of distinguished guests are to be present, and Hon. C. S. CHASE, of Racine, is to deliver the Oration. We are sorry to see that Saturday, the 3d, is the day designated upon which to hold the celebration, instead of Monday, the 5th, which has been so generally agreed upon throughout the country as the National Holiday. The following which occupies a prominent place on the programme, will show that the Whitewater people have been borrowing our thunder: "*A six pounder from the Washington Artillary Co., of Milwaukee, will be on the ground.*"

CROPS IN KANSAS.—Under date of June 15th, a gentleman writes as follows: "Kansas, like all other portions of the West, has been visited with continuous rains, and the farmers have suffered a serious loss from the frequent floods.—Nevertheless I have seen corn in the Territory nearly knee high, and beautiful fields of wheat seemingly within ten days of the harvest. But for the rains, a considerable surplus of grains would have been raised in Kansas, and as it is, a full supply is expected."

New Publications.

New American Encyclopedia. Appleton & Co., New York, publishers. This work edited by GEORGE RIPLEY and CHARLES A. DANA, two of the editors of the New York *Tribune*, and among the ablest and most industrious writers for the Press, is published in handsome and substantial style, by D. APPLETON & Co., New York, and promises to be a most valuable addition to our standard literature. It will be completed in 16 volumes, royal octavo, and furnished at $3 a volume, bound in cloth. The first volume is already out and has received the stamp of critical approbation, and the second will be issued in the course of a week. A N. Y. Correspondent of the Springfield *Republican* thus refers to the forthcoming volume of this work:

Shall I tell you of new books? Next week, the second volume of the New American Cyclopedia will be given to impatient subscribers. More imposing than the first by twenty-five pages (I have seen the sheets,) it is also more interesting, more *alive*. There are not less than a hundred principal articles, abounding in fresh and curious facts, and, I should say, at least fifty that are not to be found in any other book of reference.—Edward Everett, George Ticknor and Professor Felton are among the contributors. You will not overlook, as the distinguishing feature of this pre-eminently American work, the frequent occurrence of the dates 1857, 1858—of allusions to the Crimean war, to the great Indian revolt, and to the grim crisis whose shadow has hardly passed from us. In so vast a granary of knowledge it is pleasant to find on the top, the very winnowings of yesterday. Send your German friend hither, and I will show him an American Cyclopedia; your Italian friend came, week before last, to an American opera.

Abridgement of the Debates of Congress from 1789 to 1856.—By THOMAS H. BENTON.—Vol. II. We noticed, at some length, a few days since, the first volume of this valuable series, and expressed the opinion that the work was equally interesting and important to the politician, the scholar and the jurist. A glance at the second and subsequent volumes of the series, confirms this opinion, and it is no longer a matter of wonder to us that the work should have been generally subscribed for, all over the country. Almost every question in the politics, legislation and diplomacy of the country, may be traced, in these volumes, from its first origin to its final settlement. The views of all the leading statesmen of America upon every topic of national interest and concern are here preserved, and may be consulted, with infinite advantage, by all who would follow in their footsteps, emulate their great deeds, or profit by their long experience.

The Second Volume of these Debates extends from 1793 to 1803, and embraces the closing years of WASHINGTON's Administration; the four years of JOHN ADAMS' Administration, and the first two years of Mr. JEFFERSON's. It includes, therefore, the details of many interesting passages in American History, and few more so than the memorable struggle for the Presidency in 1801, when the House of Representatives balloted during four days, and thirty-six times, between THOMAS JEFFERSON and AARON BURR; the vote, till the last ballot, standing, by States, 8 for JEFFERSON, 6 for BURR, and 2 divided, and finally resulting 10 for JEFFERSON, 4 for BURR and 2 blank, as follows:

For Jefferson.—Vermont, New York, New Jersey, Pennsylvania, Maryland, Virginia, North Carolina, Georgia, Kentucky, Tennessee.

For Burr.—Rhode Island, New Hampshire, Connecticut, Massachusetts.

Blank.—Delaware and South Carolina.

Remarking upon this memorable contest, Col. BENTON says that the result was "due, more than to any other, to General HAMILTON, as the majority of the Federal party were strongly disposed to support Col. BURR—from doing which they were impressively and successfully counselled by him. He was personally well with BURR and ill with JEFFERSON, but took the public good, "and not his own feelings, for his guide." It was the active interference of Gen. HAMILTON in this contest, and the successful effort he made to save the country from "the calamity of BURR's election, which made the latter his bitter enemy and finally led to the fatal duel which cost the country the life of a most distinguished Soldier, Patriot and Statesman.

These volumes of the Debates, as they are published, may be obtained from S. C. GRIGG & Co., of Chicago, publishers for Wisconsin and Illinois, or from the travelling Agent in this State, by leaving orders with STRICKLAND & Co., Booksellers, in this city.

ALL RIGHT.—Since our last issue, the Railroad Company have made arrangements by which dealers are enabled to forward grain by railroad to as good an advantage as it can be shipped down the river. Already it is moving. On Tuesday last, Mr. Lawler, the freight agent at this place, made a contract to forward 2,200 sacks of wheat to Milwaukee, and wheat is now being received daily from McGregor.—*Prairie du Chien Leader, June 26.*

We are glad to note these indications of steadily increasing business on the Milwaukee and Mississippi Railroad. As Milwaukee is indisputably the best wheat market on Lake Michigan, farmers and produce dealers in the interior need no persuasions to send their grain hither, provided equal facilities are afforded them with those held out by other routes.

German Cities in Kansas.

Of the immigration which has gone into Kansas territory, very large and industrious portions of it have been Germans, and we are glad to find that they are building up their new homes with unparalleled vigor. Many towns occupied in whole or in part by them, have already arisen, among which we can notice several most favorably, both from report and statistical evidence. Bunker Hill is situated on Indian creek, ten miles from Atchison, and eighteen from St. Joseph, and possesses large advantages as a central point. Humboldt City is on the Neosho, and is in a very flourishing settlement. Ingraham is located on the Verdigris, and promises to become quite a busine s emporium. Eudora has a fine situation at the junction of the Kansas and the Wakarusa rivers, and will command the trade of both valleys. Alma is just being laid out, if we are correctly informed, on Mill Creek, and makes as yet little show. Besides these, there is a large German settlement at Rock Creek, and smaller ones at several other points in the territory. We are gratified to be able, to add, that the Germans who have thus located, are soon to enjoy the pleasure of perusing a newspaper published in their own language, at Leavenworth City, by the able and talented Dr. KOB. It will be worthy of their patronage.—*Missouri Democrat.*

THE INDIAN DIFFICULTIES.—It appears, from letters in our own and other papers, that the Indians are really in earnest in driving the settlers from Dakota Territory. The town of Medary had been sacked and plundered by at least 800 Yanktonians, and fear was entertained that unless something was done immediately to prevent further aggression, a conflict would ensue and direful results to the whites follow. Our readers well know the position we occupy on these Indian matters, viz:—Strict on their first outbreak, a sufficient force should be sent forward to put down the ringleaders. Had this been done in the case of the Spirit Lake massacre, at least two if not three lives would have been saved. We commend Gov. Sibley, for his promptness in commencing the siege of the recent disturbances, as well as the recommendation put forth in his message. We hope now that timely steps will be taken, to protect the harvesters on our frontier from the brutality of six thousand savages.—*St. Paul Minnesotian, June 26th.*

YOUNG LADY SHOT IN NEWAYGO.—We learn that a young couple of Newaygo, who were to have been married on Monday, walked out on Saturday, and seated themselves upon a log in the shade of the wood, a short distance out of the village of Newaygo; and while thus seated, the young lady was shot through her abdomen by a rifle ball, and expired in three hours thereafter.

The perpetrator of this melancholy deed claims that he was out hunting, and that when he saw her through the bushes he thought her a deer, and instantaneously drew his rifle and shot.—The lady wore a red dress, and was flirting a white handkerchief to keep away the mosquitoes; which facts fortify the claim of the hunter. To a hunter, such an appearance in the woods, might very naturally be mistaken for that of a deer; and such was doubtless the case in this instance. We have not learned the names of the parties.—*Grand Rapids Eagle, June 24th.*

Mr. Stanton on Mr. Buchanan—Plain Talk.

Ex-Secretary Stanton is stumping Kansas against the Lecompton Constitution, and pouring destructive broadsides into that atrocious fraud, and the miserable Democracy which support it. During Mr. Stanton's late speech at Leavenworth City, he touched on the President in this vigorous style:

Gentlemen, I have sought in vain to find an example in history of such treachery as that which has been exhibited by the present administration towards Governor Walker in these momentous affairs in Kansas. Since the days of King David no parallel can be found. Even his treatment of Uriah, the Hittite, was scarcely as bad as Mr. Buchanan's treatment of "his best friend and wisest councillors." By Uriah's own hand, David sent an order to Joab: "Set ye Uriah in the forefront of the hottest battle, and retire ye from him, that he may be smitten and die." But treacherously sacrificed as he was, he at least had the opportunity of meeting a glorious death on the field of battle, falling in the cause of his country, and leaving behind an imperishable name. He escaped the mortification of surviving his own honor, and of knowing himself betrayed by his king. David, too, had the excuse of being moved to commit this crime by the most uncontrollable of human passions.—Mr. Buchanan has no shadow of excuse. *His conduct exhibits a case of unmitigated treachery*—treachery to friends—treachery to principles and pledges—treachery to the best and highest interests of the great and patriotic party which placed him in power. David's offspring by Uriah's wife was not permitted to live; so the Lecompton Constitution—the bastard results of Mr. Buchanan's unnatural alliance with the southern disunionists—already stricken by the curse of God, will die by the hands of the people. David, however, having truly repented of his great wickedness, was forgiven and restored to the favor of his Creator. Mr. Buchanan, on the other hand, being obdurate and unrelenting, has committed the unpardonable sin, and will receive the execration of good men in all time to come.

The nature of the crime against Popular Sovereignty and the liberties of a people, involved in the English bill, is thus vividly portrayed:

Gentlemen, I can hardly trust myself to speak of this passage in the history of my country. No greater crime against liberty has been anywhere committed during this century. All the miserable and flimsy pretexts—all the technical and preposterous dogmas—by which this monstrous falsehood has been attempted to be justified and upheld, are but the thin disguise under which tyranny and wrong would hope to conceal their unholy purpose. The Administration well knows—Congress knows—the whole world knows—that the people of Kansas are almost unanimous against the Lecompton fraud—The unfortunate and discreditable circumstances under which the instrument was clothed with the regular and technical forms of law, have been fully exposed. No man need be ignorant of any of the facts. And yet by means of a technical presumption—though a more legal fiction—positive and well known facts are made to give way—a known falsehood is to be established as truth—and the constitutional rights of a free people are to be sacrificed and trampled in the dust!

Gentlemen, when the passions and prejudices of the present hour shall have passed away, the spectacle now exhibited will be considered one of the most extraordinary phenomena ever presented in the history of the world. The solid and substantial liberties intended to have been secured to the States and Territories, by the Constitution of the United States, are to be substituted by a mere sham, a mere painted bubble, a mere gossamer, cob-web tissue of false logic and contemptible technicalities, and almost the whole body of a once powerful and patriotic party is seduced, infatuated and mesmerized, to believe the patent and baleful lie!

The Bogus Coin-Maker—Indictment of a Lockport Lawyer and Merchant.

The United States Grand Jury at Canandaigua, on Monday, found a bill of indictment against John D. Numan, a lawyer, and Eric Johnson, a merchant, of this village, for uttering counterfeit coin. They both left for Canandaigua, in charge of the U. S. Marshal, last Wednesday evening. Their bail is fixed at $2,500 each. We also understand that a man named Bishop, who lived on High street, in this village, and ran away about a week since, has been arrested near Troy, and is now in jail. He has also been indicted by the same court.

The facts upon which these arrests have been made are sufficiently revealed to justify a statement of them. Some two months since officer Tucker was advised by a criminal, who had been in jail here, that bogus coin was manufactured in this village and some persons were named as being connected with it. The maker of the coin was said to be a man named Bishop, who came here about six months ago and moved into a house adjoining J. D. Numan's, on High street. His accomplices were said to be Eric Johnson, John D. Numan, and other parties who we will not name, as they have not been arrested. Tucker kept watch over these men and about a week since obtained evidence sufficient, as he thought, to warrant the arrest of Johnson. Since then James Hornsby, of this village, who had a knowledge of the transactions of the parties implicated, has revealed all that he knew of the matter. It is understood that it was on his testimony that Numan was indicted.—*Lockport Courier, June 24th.*

Correspondence of the Boston Journal.

Burning of the Housatonic Paper Mills.

JAY, June 23.

This thriving and industrious village has been visited by a calamity in the form of a large conflagration. The fire broke out about 3 o'clock this morning in the Housatonic Paper Mill, owned by Messrs. Plainer & Smith, and it spread with such fearful rapidity, leaping from room to room, that in less than half an hour the largest paper mill in Berkshire county was wholly enveloped in flames. Two boarding houses adjoining on either side, and owned by the same firm, shared the same fate; the flames driving out of doors some sixty tenants. It is difficult at this moment to estimate the loss, as the stock of paper on hand was quite large, some of which, however, was saved. It is probably about $80,000, on which there is an insurance of $38,500.

By this sad calamity 110 operatives have been thrown out of employment; more than half of whom are females. Many of the families of the workmen are thus left, in addition to the troubles from the late panic, destitute and penniless.

Another correspondent gives the following additional particulars:

"The amount of stock in the mill is estimated at $100,000 which would bring the loss up to $150,000. The insurance is but $27,500, distributed as follows: Conway Mutual, $2,500; Etna, Hartford, $10,000; Springfield Fire and Marine, $5,000; Home of New York, $5,000; Western Massachusetts, Pittsfield, $5,000. Total $27,500.

There was $1,800 insured on the Boarding Houses, in the Berkshire Mutual office of Pittsfield.

The Housatonic Mill was the most costly mill in New England, with perhaps the exception of the stone mill at Norwich, Conn. It was certainly the best appointed mill in the country and most known. It was owned by Messrs. Plainer and Smith, who had bestowed unusual pains in obtaining the most perfect machinery.

THE WEATHER, CROPS, &c.—After two months of cold, wet weather in April and May—June, bright and glorious June, assumes her wonted attire. All nature is clothed in her richest mantle of green, and joyous in the change, the earth is again carpeted with Wisconsin's most beautiful Florals, and the sweet songsters of the groves are filling the air with glad notes of thanksgiving and praise.

Though the wet season has been somewhat unpleasant and unfavorable for farmers to sow spring wheat, oats, &c., and to plant corn; yet, it has been peculiarly favorable for Fall sown wheat and also for grass. We have never seen more favorable prospects for both winter and spring wheat than the present season. The La Crosse Valley can produce some of the best looking wheat fields in the State, at the present time, and not a few of them either. Corn, also is looking very fine for the late season. Farmers need have no fears for their corn; a late spring generally brings a corresponding late fall.—*Sparta (Monroe Co.) Freeman, June 24.*

PARK BENJAMIN BEATEN.—The case of Park Benjamin, Esq., vs. the Young Men's Mercantile Library Association of Cincinnati, for the non-fulfillment of a lecture contract, came to trial yesterday, and resulted in a verdict for the defendants. It will be remembered that Mr. Benjamin was engaged by the Association to lecture before them for $100. Previous to the time set for the lecture, he came to this city and gave lectures on his own account; the first of them was well attended; the last barely paid expenses. The public having become satiated with Mr. Benjamin, he was notified by the Association that he was not wanted to lecture before them. He, however, came to the city on the day set, and offered his lecture. The offer was decidedly declined, and the present suit was brought to recover the $100 which he would have had if he had lectured. He plead the contract. The Association set up the defence that Mr. Benjamin's course was contrary to the usage of lecturers; that when they agreed to lecture for the Association, they tacitly promised not to lecture in the city previously for the benefit either of themselves or any one else. The result of the trial sustained the Association.—*Cincinnati Gazette.*

GREAT MILITARY DISPLAY.—On the 3rd of June, Governor Packer issued an order directing that a camp of instruction should be held at Williamsport, Lycoming county, during the present season, the time and arrangements for which were to be designated by the Adjutant-General of the commonwealth, E. C. Wilson. In pursuance of this order, Gen. Wilson has published his programme for the camp, fixing Tuesday, the 7th day of September, for the beginning, and to continue until Saturday, the 11th of September, as the time. The name agreed upon is Camp Susquehanna. The encampment is intended to include all the uniformed companies in the State. The division and brigade officers are required to report to the office of the Adjutant-General, as soon as possible, what companies and field officers will be in attendance from their respective commands, with the number of men in each company; and information furnished, in pursuance of this order, says that sixty companies are already announced as to be present.—Major General D. E. Jackman, of the Eleventh division, is to be the senior officer on duty, and is to be charged with the immediate arrangements for the encampment.

It is anticipated that this camp will be the largest ever assembled in Pennsylvania, embracing some ten thousand men. Governor Packer, as commander in chief, will be present, with his aids, in full parade dress, and if they all go there the army will be tremendous. For the first time, this will show who are really the Governor's aids and who are sporting the title emptily. Philadelphia will, doubtless, contribute a large portion of the whole encampment, and though not such as we might turn out, it will be very numerous and efficient in every firm of the service.—*Philadelphia Gazette.*

PARIS JUNE 3, 1858.—A husband of a reasonable age recently entered a "*magasin de nouveautés*" and desired to look at the assortment of shawls, wishing, he said, to make a present to his wife upon her birthday, close at hand. One of the shawls seemed to please him in everything save the price; the shop-keeper demanded a thousand francs, and he was willing to pay only eight hundred. After some attempt at bargaining he went away without deciding, promising to return again. The cunning merchant ran immediately to the gentleman's residence, saw his wife and related the occurrence to her. Enchanted at the kindness of her spouse, the lady willingly paid the two hundred francs at which he had demurred, and sent away the dry goods man, having enjoined upon him the strictest silence.

Eight days passed. The birthday arrived but not the shawl! The lady, uneasy at the non-appearance of the present, after allowing the usual week of grace, sent to demand her money or the shawl! Astonishment of the merchant! The shawl had been delivered to the husband some ten days previous.

Figaro asks: what did he do with it?—*Cor. of Boston Post.*

Daring Rescue of an Abandoned Ship.

From the N. Y. Evening Post.

Among the arrivals reported in our ship news to-day is that of the wrecked brig Isabel Beurmann, under circumstances deserving of more than passing notice. The Isabel Beurmann sailed from this port on Tuesday of last week, with a valuable general cargo, bound to Port au Prince. On the following day the Fanmin Roll Road Company's brig Caroline, Captain Whitteburry, also sailed from this port, bound for Aspinwall.

On Saturday morning last, at half past seven o'clock, 160 miles southeast by south from Barnegat, the Caroline discovered an abandoned wreck, which on being boarded, proved to be the Isabel Beurmann, which had evidently been in violent collision with a large ship, and was rapidly sinking. Her port bow was completely mashed down some distance below the water line, her bowsprit towing over her bows, all sails clewed up, but the mainmast towing overboard; and she had already six feet of water in her hold. A terrible scar high upon her foremast indicated that she must have been in collision with a large ship, and the fact that the brig's boats were still on board, while every portable thing of value had been removed, showed that the crew had been taken off at leisure, probably by the ship that had caused the damage, and which from the force of the blow, must have suffered severely herself.

Captain Whitteburry immediately set all hands at work on the wreck, except himself and his cook, and by drawing canvass over the bow and diligent pumping she was freed from water at seven o'clock in the afternoon. The mate, Mr. John Porter, an energetic young man, then volunteered, with two seamen, to attempt the perilous task of bringing the wreck into port. Fortunately they have had only light variable winds most of the time, and by hard working at the pumps and careful navigation they succeeded in their undertaking. The wreck arrived in the lower bay early this morning, was taken in tow by a tug, and now lies at Burling slip, a sorry sight. She has been visited this forenoon by numbers of nautical men, all of whom express their amazement at the daring of her hardy rescuers. The value of the ship and cargo, as she lies, is roughly estimated at $50,000, upon which of course, the highest rate of salvage will be paid.

THE RING OF TRUE METAL.—Senator Bell, of Tennessee, declined a dinner tendered him by Luther Bradley, Simeon Draper, Joseph Blunt and others, of New York, and in his letter we find sentiments worthy of John Bell, one of the purest men that ever graced the American Senate. He says:

Every patriot must see, wherever he may live under the broad seal of the Union, that the time has come for a great moral revolution in the administration of the Government. All the national interests have been slighted and neglected, as if the prosperity of thirty millions of people claimed no consideration. Improvements of rivers and harbors, upon which internal commerce depends for its transit and security, have been denied; the government is carried on by the use or abuse of public credit; all practical legislation has been refused, and at a time when every man asks his neighbor why this universal derangement and stagnation of trade has come to pass, neither the President nor his advisers have made a recommendation or enquiry directed towards relief. They have either stood still, or exerted their adm nistrative faculties for the domination of party or the distraction of the Union.

No wonder then, the cry of "change" has gone forth, and that the people are rising up in their own strength to demand it. The North and the South have an equal stake in the result, and whatever energies I can command shall be employed now, as heretofore, in restoring the government to its original purity, in strengthening the bonds of union, and in promoting those moral and material interests by which alone as a nation we can be prosperous and happy.

MOTHERS! MOTHERS! MOTHERS!
DON'T FAIL to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.
This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never-failing success in millions of cases.
We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arise from teething or from any other cause.
Its life and health can be estimated by [dollars and cents,] it is worth its weight in gold.
Millions of bottles are sold every year in the United States. It is an old and well-tried remedy.
PRICE ONLY 25 CENTS A BOTTLE.
None genuine unless the fac-simile of CURTIS & PERKINS, New-York, is on the outside wrapper.
Sold by Druggists throughout the world. Office No. 13 Cedar street, New York.
Sold in Milwaukee by BOWMAN & FOSS.

MEDICAL.

AYER'S CATHARTIC PILLS.
THE sole cause of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they will universally upon the esteem of all men. They are safe and pleasant to take, powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel the disease. They purge out the foul humors which breed and grow distempers, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to their whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.
The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of numerous complaints.
Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for Ayer's Pills and take nothing else. No other they can give you compares with them in the positive value or curative power. The sick want the best and there is for them and they should have it.
Prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.
Price 25 cents per Box. Five Boxes for $1. Sold by—

THE GREATEST
MEDICAL DISCOVERY OF THE AGE.
MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures
EVERY KIND OF HUMOR,
FROM
The worst Scrofula down to a common Pimple.
He has tried it in over seven hundred cases, and never failed except in two cases, both blunder heads. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.
Two bottles are warranted to cure a nursing sore mouth.
One to three bottles will cure the worst kind of pimple, on the face.
Two or three bottles will clear the system of biles.
Two bottles are warranted to cure the worst canker in the mouth or stomach.
Three to five bottles are warranted to cure the worst kind of Erysipelas.
One to two bottles are warranted to cure all humors in the eyes.
Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two or three bottles are warranted to cure the worst kind of ringworm.
Two or three bottles are warranted to cure the most desperate case of rheumatism.
Three to four bottles are warranted to cure salt-rheum
Five to eight bottles will cure the worst case of scrofula.
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity taken.
ROXBURY, MASS.
DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skilful physicians and the most careful Druggists in the country are unanimous in its praise.
In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers; in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother
NURSING SORE MOUTH,
is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to you husband and household.
In the more advanced stages of
CANKER
extends to the stomach, causing
DYSPEPSIA,
which is nothing but canker on the stomach; then to the intestines and
KIDNEYS,
creating a sinking, gone feeling, and an insatiable ravenous to the cures of your family.
RAW AND INFLAMED,
your food distresses you, and you can only take certain kinds, and even of these your system does not get half the nourishment it contains, as the acrimonous fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or sometimes a pale, dirty, yellow, as gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to
CURE;
Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you rise, irregularity of the bowels, and also, that most excruciating of diseases the
PILES.
How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In the
MEDICAL DISCOVERY
you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

COMMERCIAL & FINANCIAL.

OFFICE OF THE DAILY SENTINEL, } Tuesday Evening, June 29, 1858. }

MONEY MATTERS.—There is rather a surplus of Exchange on the market, but currency is not over and above plenty. Business generally is stirring, and a fair amount of goods are going into the country. The Banks have plenty of money for all straight business paper that is offering. Exchange and gold steady and selling at 1 per cent. Note Brokers rate 1½ @ 2½ per cent per month for well secured paper. Not much doing in this line. Land warrants were in good demand to-day.

OUR MARKETS.

RECEIVED BY MIL. & MISS. R. R., June 29.—981 bbls flour, 12,000 bushels wheat, 9,536 bus oats, 293 bus corn, 80 bus potatoes, 90 bus barley, 1,750 lbs wool, 1,258 lbs hides, 23,614 lbs sundries, 580 lbs rags, 134 bus rye.

LA CROSSE & MIS. R. R., June 28—4,742 bus wheat, 3,198 bus oats, 19 bus potatoes, 229 bbls flour, 8 bags do, 9 bbls eggs, 2,851 lbs hides, 7,855 lbs sundries, 2 head cattle.

M. W. & S. V. R. R., June 29—4,067 bus wheat, 917 bus oats, 115 bbls flour, 3 bbls eggs, 690 lbs butter, 952 lbs wool, 5,000 lbs sundries.

MIL. & MOR'S R. R., June 29.—1,437 bus wheat, 1,789 bus oats.

Our produce market has been extremely dull to-day, but we can hardly say that a decline in wheat has been established. Buyers are offering 2 to 3c less than yesterday's quotations, but sellers are rather holding back in expectation of doing better, and thus the market remains about as we noted yesterday, almost at a stand still. The general tenor of this evening's telegraph report indicates a drooping tendency of prices in all the eastern markets. The N. Y. wheat market to-day is reported heavy, and common grades of wheat 1 to 3 cents lower. Receipts of grain by Mail road are moderate, except of oats, which continue coming in in large quantities. The weather continues quite warm, the effect of, which must be very beneficial to the growing crops, corn particularly. We quote to-day:

WHEAT—Heavy and transactions limited. The market opened dull this morning, buyers offering 2 to 3c less than yesterday's figures, and sellers still holding back. Within the past few days considerable damp wheat has come forward, which is very difficult to dispose of. Several of yesterday's purchases were rejected to-day on this account. It is poor policy to send damp wheat to market. It invariably sells at a loss to the owner. The sales to-day are lighter than for many days past. We note the following, which however do not include all the transactions of the day: 185 bags choice extra at 74c; 438 bags good do at 73c; 887 bags choice No. 1 at 72c; 380 bags good do at 70c; 150 bags extra white winter at 80c; 50 bags do at 85c, and 70 bags ordinary do at 80c. Red winter nominal at 73@80c.

FLOUR—Quiet and unchanged. The only sale we have heard of to-day was 24 bbls "Fulton Mills" spring extra at $5 25 delivered.

FREIGHTS—Rates unchanged. The Propeller Mayflower takes a cargo of wheat to Tonawanda at 5c, and the Propeller Milwaukee, 500 bbls flour to Buffalo at 20c. The Schooner W. H. Sherwin takes wheat to same port at 4½c.

OATS—Receipts continue larger, being nearly 10,000 bus to-day. We note sales of 900 bags at 32c, which appears to be the ruling market price. Several lots however sold at 31 and 31½c.

RYE—Quiet at 50@51c. No sales reported

BARLEY—In moderate request at 85@86c. Good bright lots will bring outside figures.

CORN—In fair request at 43@47c in the car. Sales of 50 bags at 45c.

POTATOES—Are still rather inactive, and sell generally at 20 to 25c.

HOGS—Are almost unsaleable, and quoted nominal at 7c by the bbl.

BUTTER—The market is still abundantly supplied, and the best fresh roll will scarcely bring 9c.

HIDES—Are in active request, at same prices. Green $3@4 50; green salted 7a7½c, and dry 13a14½c from common to prime.

SHORT PELTS—Sheared pelts are quite dull at 10c; lamb skins saleable at 30@35c, and full wool pelts $1 to $1 87½.

WOOL—Coming in in small lots, and selling at our previous quotations. We note one sale of 200 lbs common unwashed at 26c. The range of prices is about 20a30c from coarse to full blood.

NEW YORK MARKET.

New York, June 29.

FLOUR—Market without material change; while the demand is most extensive the receipts 79,000 bbls at 2 50@3 05 for superfine state; 4a4 05 for extra do; 3 80@3 90 super western; 4a4 60 common to medium extra do; 4 30a4 70 shipping brands round hoop extra Ohio. Canadian flour quiet; sales 900 bbls at 4 10a5 20 for extra. Rye flour dull; sales at 3a3 50.

WHEAT—Market very heavy and late lower on common grades; sales 30,000 bus at 74a86 for Chicago spring; 84a85 for Milwaukee club; 1 94 for extra Michigan.

RYE—Dull at 71a72.

BARLEY—Dull.

CORN—Dull; sales 29,000 bus at 56a57c for mixed western; 74@76 for yellow southern.

OATS—Dull; 44@45 for State and Western.

CORN—Scarce; sales 10,000 bus at 41.

OATS—Firmer; sales 18,000 bus to arrive at 29.

WHISKY—Held at 21½.

CANAL FREIGHTS—Wheat 10a10½ to New York; flour 35 a37.

LAKE FREIGHTS—4,900 bbls flour, 4,000 bus wheat, 5,000 bus corn, 6,100 bus oats.

CANAL ARRIVALS—2,000 bbls flour, 47,000 bus wheat, 10,000 bus corn, 20,000 bus oats.

OSWEGO MARKET.

OSWEGO, June 29.

FLOUR—Steady.

WHEAT—Lower on common grades; sales 80,000 bus at 76a78½ for Chicago spring; 80@81 for Milwaukee club and Racine, 104½ for white Michigan.

CORN—Firmer; sales 19,0 0 bus choice Ill. river at 66c afloat.

OATS—Firmer—sales 3,000 bus wheat at 43½c.

CANAL FREIGHTS—Easier; wheat 7¾c to New York.
